

Write about the following topic:

***How is climate in your country different from 50 years ago?  
 Describe the way that climate has changed in your country.***

Give reasons for your answer and include any relevant examples from your knowledge or experience.

***Write no less than 180 words.***

| How my climate is changing during the last fifty years |  |
|--|--|
| Main ideas   | Supporting Details / Example                                 |
| 1. Global temperature has gone up.                     | _____<br>Example: _____<br>_____                             |
| 2. Rise in sea levels.                                 | <i>Lands are now under water.</i><br>Example: _____<br>_____ |

| Why the climate has changed during the last fifty years |                                  |
|---|----------------------------------|
| Main ideas  | Supporting Details / Example     |
| 1. Burning fossil fuels.                                | _____<br>Example: _____<br>_____ |
| 2. deforestation (Cutting down trees)<br>_____          | _____<br>Example: _____<br>_____ |

**Now Use the outline and your answers to write your essay here.....**

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be a standard notebook page, possibly from a composition book. The edges of the paper are slightly irregular, suggesting it might be a scan of a physical document. There is no handwriting or other markings on the page.
